Fund Manager Commentary	
<p>Itqan Murabahat and Sukuk Fund continued strongly to outperform its mandated benchmark in the first quarter of 2018, achieving an annualized return of 2.96% for the period. This adds to the Fund's stellar run and raise Fund's total return since inception and accumulative alpha to 16.13% and 8.59% respectively.</p> <p>International fixed income markets witnessed great challenges in the first quarter of 2018. The American Federal Reserve raised the benchmark interest rate by 25 basis points, imposing a challenge for the fund manager to maintain his performance over the coming period. Moreover, the Federal Reserve committee members expect another increase in the interest rates for the upcoming year to support the economy and curb inflation.</p>	<p>Regarding Saudi Arabia's GDP, it is expected to witness growth as a result of diversification in its investment portfolio.</p> <p>The fixed income markets in the region have been affected by the current political factors and consequently, the Fund Manager cautiously pursued the selection of adequate sukuk and assets allocation in the fund, while continuing to invest in murabaha with prominent Gulf banks to carry out strong performance during the fourth quarter of the year.</p>
